### MARCH FOR OUR LIVES

Isn't it interesting how hundreds of thousands of kids organized these mega-marches across the country? We know for a fact there is no way these kids have the money and connections to pull off such gigantic and well-organized events. But we know the Democratic party does. And their whole agenda isn't school safety. I'm not even sure it's gun control. But it is to register voters. I looked on the website for this event, and the first thing is to register voters. <https://marchforourlives.com/>. But we need voters too!! Everyone is important in this fight for our country. One thing that these young people convey at the rallies, is that they don't know our constitution and how it protects us from the government. Anyone can learn about the constitution. Hillsdale College offers free Constitution courses. [Hillsdale College free online classes](#) A great idea is to take the courses as a family.
